The year is 1919. The McNaughton Corporation is the pinnacle of American industry. They built the guns that won the Great War before it even began. They built the airships that tie the world together. And, above all, they built Evesden—a shining metropolis, the best that the world has to offer. But something is rotten at the heart of the city. Deep underground, a trolley car pulls into a station with eleven dead bodies inside. Four minutes before, the victims were seen boarding at the previous station. Eleven men butchered by hand in the blink of an eye. All are dead. And all are union. Now, one man, Cyril Hayes, must fix this. There is a dark secret behind the inventions of McNaughton and with a war brewing between the executives and the workers, the truth must be discovered before the whole city burns. Caught between the union and the company, between the police and the victims, Hayes must uncover the mystery before it kills him.

major corporation, a local boy made good, and once the most admired man in a company town. But that was before the layoffs. When a faceless stalker menaces his family, Nick, a single father of two since the recent death of his wife, finds that the gated community they live in is no protection at all. He decides to take action, a tragedy ensues - and immediately his life spirals out of control. At work, Nick begins to uncover a conspiracy against him, involving some of his closest colleagues. He doesn't know who he can trust - including the brilliant, troubled new woman in his life. Meanwhile, his actions are being probed by a homicide detective named Audrey Rhimes, a relentless investigator with a strong sense of morality - and her own, very personal reason for pursuing Nick Conover. With everything he cares about in the balance, Nick discovers strengths he never knew he had. His enemies don't realize how hard he'll fight to save his company. And nobody knows how far he'll go to protect his family. Mesmerizing and psychologically astute, *Company Man* is Joseph Finder's most compelling and original novel yet.

James S. Kunen—author of *The Strawberry Statement*, an account of the 1968 student uprising at Columbia University—chronicles his adventures on the road to finding meaning in work and life. He traces his evolution from a rebellious youth who sees working as a kind of death, to a laid-off corporate executive who experiences not working as a kind of death, to a reinvented and reinvigorated individual who discovers something important and meaningful to do. The experience of falling victim to America's recession-ravaged economy (and the people who run it) leads him along a career path far different from anything he had planned. After years of making a living, Kunen finally learns how to make a life. *Diary of a Company Man* will be a revelation not only to baby boomers but to young people trying to figure out what to do with their lives.
