For a typical novel or narrative nonfiction book of about 200 pages, I would start off with an outside margin of .75" and a gutter margin of .875". Remember that because our margins aren't even, our pages are asymmetrical, although if you look at your book as a series of two-page spreads, the whole layout is neatly

Transitions and gutters are tools that comic book authors use to help progress the story, add certain effects, and convey specific ideas throughout the text. Though the author has the initial power while creating his or her work, the reader gets the final say in how they are going to use closer between panels to draw conclusions about what the author was trying to convey.
