The untold story of the renegade burger chain that evokes a passionate following unlike any other In fast-food corporate America, In-N-Out Burger stands apart. Begun in a tiny shack in the shadow of World War II, this family-owned chain has steadfastly refused to franchise or be sold. It is a testament to old-fashioned values and reminiscent of a simpler time when people, loyalty, and a freshly made, juicy hamburger meant something. Over time, In-N-Out Burger has become nothing less than a cultural institution that can lay claim to an insanely loyal following. Perman uses her investigative skills to uncover the story of a real American success story. It is not only a tale of a unique and profitable business that exceeds all expectations, but of a family's struggle to maintain a sustainable pop empire against the industry it helped pioneer, internal tensions, and a bitter lawsuit that threatened to bring the company to the brink. This is a lesson in a counterintuitive approach to doing business that places quality, customers, and employees

A national bestseller, this extraordinary work of investigative reporting uncovers the identities, and the remarkable stories, of the CIA secret agents who died anonymously in the service of their country. In the entrance of the CIA headquarters looms a huge marble wall into which seventy-one stars are carved—each representing an agent who has died in the line of duty. Official CIA records only name thirty-five of them, however. Undeterred by claims that revealing the identities of these "nameless stars" might compromise national security, Ted Gup sorted through thousands of documents and interviewed over 400 CIA officers in his attempt to bring their long-hidden stories to light. The result of this extraordinary work of investigation is a surprising glimpse at the real lives of secret agents, and an unprecedented history of the most compelling—and controversial—department of the US government.
