Mercury has the valve located on the right side of the engine bracket, (viewed as if you are driving the boat or standing behind the outboard motor). The manual release for Yamaha and Evinrude outboards is located on the left side, midway down the transom bracket.

Manual Tilt Release Valve – Just In Case

After removing the snap ring and unscrewing the valve you may need needle nose pliers to grab the valve and pull it out. It does have an O-ring that can cause leaks. I forget--just operating on memory here--but you may need to remove the entire trim tilt unit before removing the snap ring and the valve. cbr120
