Analyzes the films and filmmaking career of director Hal Ashby, placing his work in the cultural context of filmmaking in the 1970s.

Under modernity, time is regarded as linear and measurable by clocks and calendars.

Download File PDF Ual Politics

Despite the historicity of clock-time itself, the modern concept of time is considered universal and culturally neutral.

What Walter Benjamin called "homogeneous, empty time" founds the modern notions of progress and a uniform global present in which the past and

Other forms of time consciousness are seen as superseded. In *Translating Time*, Bliss Cua Lim argues that fantastic cinema depicts the coexistence of other modes of being alongside and within the modern present, disclosing multiple *incommensurable* temporalities that

has been an enduring
point of reference for

produced an
innovative work that
extends and adds to

the essay's frame of reference. Drawing on 18th- and 19th-century fairy tales, and observing how their flat narratives matched the flatness of their depictions, Rose created collages that connect these pre-cinematic illustrations to what Mulvey describes in her essay--cinema
