A sign language is quite different to a spoken language. It is a language where gestures and facial expressions are used in order to convey information instead of vocal tracts. This is one of the key differences between a sign language and a spoken language.

Download Ebook Verbal Difference Between

~~Sign Language and Spoken Language ...~~

Signed languages express spatial relationships much more easily than spoken languages. If you wanted to communicate that "the cup is on the table," speakers must use words to explain it.

A signer could physically express that

Verbal vs. Non-Verbal
Communication We
communicate with much
more than words: when
we interact with
someone, our body has a
language of its own. The
way we sit, the gestures
we make, the way we
talk, how much eye
contact we make – all of
these are non-verbal
ways of communicating
