Programming

Now that we are well acquainted with Socket.IO, let us write a chat application, which we can use to chat on different chat rooms. We will

File Type PDF

Voice Chat

allow users to choose a username and allow them to chat using them.

So first, let us set up our HTML file to request for a username –.

```
<!DOCTYPE html>  
<html> <head>  
<title>Hello  
world</title>  
</head> <script  
src = "/socket.io/so

button and group boxes. Give the form objects names as in... Step 3: Add 2 namespaces to the project. using System.Net; using System.Net.Sockets; Step 4 : Add ...

How To Make a Chat Application in C#

File Type PDF

Voice Chat

This is a LAN chat application with TCP/IP socket programming

technology in C#.

This application is a multi thread network application and works in a non-blocking way.

Public and private chat is also implemented in this code.
