Most zoos don't provide the right kind of care for wild animals. This can mean cramped spaces and an improper diet. Just think about how you would feel trapped in a concrete cage for about 50 years! Zoos sell animals and break bonds between animals that have been together since birth. Captivity can also lead to overpopulation.

Should wild animals be kept in captivity? | Debate.org
Although many animals see a reduction in their lifespan because of captivity or attempts at domestication, this outcome does not occur with all species. Sea lions live an average of 10 years longer when they are in captivity. Giraffes and tigers can also live an average of five years longer when they are in a protected environment. 9.
